
SAFE DAY

BROUGHT TO YOU BY THE PARTNERSHIP OF

THIS YEAR SAFE DAY HAS EXPANDED! Safe Day 2016 will open with safety seminars beginning at 8:00am. The Annual Safest in the Industry Awards will be recognized during lunch and the day will conclude with the OSHA Stand Down Workshop. Safe Day helps bring safety awareness to the forefront of the construction industry. In the spirit of growing the event, ABC and AGC Alabama have partnered, and members of both

associations will be in attendance. It is a known fact that this event not only recognizes excellence in safety, but that it also saves lives. There are no secrets in safety, and we believe this partnership will only enhance the event and highlight the excellent strides the construction industry has made in safety.

FRIDAY, MAY 5TH 8:00 AM - 1:00 PM • SHERATON BIRMINGHAM HOTEL

2017 Agenda Coming Soon!

ABC SAFE DAY WELCOMES DR. TODD CONKLIN AS OUR 2017 KEYNOTE SPEAKER!

Dr. Conklin is a Senior Advisor to the Associate Director, emphasis in Organizational Development and Human Reliability, at Los Alamos National Laboratory where he has served in the Human Resource and Reliability Management and Training arena for the last 15 years. His book : **WAYS TO REVITALIZE: SIMPLE REVOLUTIONARY ACTS AND YOUR WORKPLACE** helps one, in a fun way, become a

positive deviant in the workplace. His most recent book, **PRE-ACCIDENT INVESTIGATIONS**, provides an introduction to organizational safety.

National Public Radio has hosted him as a guest on “All Things Considered” and “Morning Edition.” Dr. Conklin speaks on Workplace Humor and Friendships; Workplace Violence; High-risk Conflict Organizational Development; and Training for Recognizing Unusual Behavior in the Workplace. This expertise results in a broad spectrum of courses which include Appreciative Inquiry; Organizational Development, Conflict Management and Team Building; Hostage Negotiation 101

and training for Recognizing Unusual Behavior in the Workplace; and Violence in the Workplace. The Appreciative Inquiry model helps groups of people make decisions based upon the past success of the individual members to build lightning fast consensus from groups that often are unable to have agreement around difficult issues. Conflict Management and Team Building is for facilitated sessions to help teams realize a more full potential, create a more positive sociological environment, solve problems, plan ahead, and create new understandings or definitions of scope, schedule, and cost. Hostage Negotiation 101 training teaches the ins and outs of successful negotiation with a hostage taker and is highly specialized for law enforcement and security corporate personnel.

Recent presentations include ideas on how to make changes in companies from what is considered the traditional views of safety concerns, which are becoming outdated and ineffective, to the new Human Performance Safety Theory. This theory invites administration, management and workers to come together to look at systems that lead to accidents and make changes before the accidents occur.

Dr. Conklin has his BA in Communication, Southwestern College, Kansas, MA in Interpersonal Communication, Fort Hays State University, and a Ph.D in Organizational Communication, University of New Mexico. He currently has his residence and office in

Santa Fe, New Mexico and travels worldwide doing consulting and training in organizational development and Human Performance Safety.
